DEPT. OF ENVIRONMENTAL CONTROL

Mr. James J. Cowhey
President
Land and Lakes Company
123 N. Northwest Highway
Park Ridge, Illinois 60068

Dear Mr. Cowhey:

Pursuant to Section 17-6.1 of the Municipal Code of Chicago, a permit to operate a Sanitary Landfill within the property described below, for the period of April 17, 1978, through April 16, 1979, is hereby granted.

"A line 50 feet south of E. 118th Street, S. Chippewa Avenue, E. 122nd Street and S. Stony Island Avenue.

You are advised that the permit authorizes use of the land for disposing thereof street dirt, general excavation spoil, general refuse, bulk refuse and commercial and industrial solid waste. Sewage sludge, liquid waste, toxic and hazardous materials will not be permitted.

The maximum elevation of the final grade, including cover, shall not exceed +26 feet CCD as indicated on Phase I of your permit drawings.

The boundary markers must be metal poles painted white with red tops. One elevation marker must be erected at a point near the entrance of the property so that the grade elevation can be placed thereon. Fences should be erected around the track to be filled in phase I area on the west and south sides. Results of the monitoring well analysis must be submitted to the department monthly.

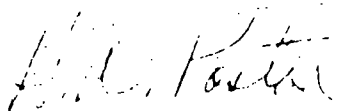

EPA Region 5 Records Ctr.

354210

The sanitary landfill must be maintained and operated in accordance with the plans, specifications and operating procedures set forth in the engineering report of Land and Lakes Company, dated August 9, 1977, and a final drawing dated October 13, 1977, submitted as part of the permit application. All City ordinances must be observed in detail. This permit should be conspicuously placed at the landfill site at all times.

Sincerely,

Commissioner
